PREMIUM IMPORT IGNITION WIRE

THE ULTIMATE IMPORT WIRE

Genuine Intermotor™ Import Ignition Wire Sets feature original equipment fit, form and function...plus! Every Intermotor™ set is designed, built and tested to meet or exceed the tough international TS16949 quality standards. That's why technicians appreciate Intermotor™ factory-installed clips, loom and trays* for a flawless installation while motorists enjoy exceptional power and long service life for the ultimate in import performance.

BEAUTY'S MORE THAN SKIN DEEP.

IT'S WHAT'S ON THE OUTSIDE THAT GIVES INTERMOTOR™ WIRE ITS BEAUTY, BUT IT'S WHAT'S INSIDE THAT GIVES INTERMOTOR™ ITS IMPORT FIREPOWER.

Conductive Core

Matched to Each OE Type - Low OHM, Ferrite Mag, Wire Wound, Silicone, or Metallic for maximum voltage and enhanced RFI Suppression

Hi-Temp Braid Tape

Bonds the Jacket to the Insulation Improving Protection, Tensile Strength and Terminal Retention

Silicone Insulation

High Heat Resistance Plus Superior Dielectric Protection for Maximum Voltage Flow and Power

Patented Hi-Gloss Clear Coat

Permanently Bonded to Jacket Enhances Abrasion Resistance and Severe Temperatures

Hi-Temp Silicone Jacket

Maximum Thermal Protection

Premium Import Ignition Wire Sets

PREMIUM IMPORT IGNITION WIRE SETS

THE ULTIMATE IMPORT WIRE

Genuine Intermotor™ Import Ignition Wire Sets feature original equipment fit, form and function...plus! Every Intermotor™ set is designed, built and tested to meet or exceed the tough international TS16949 quality standards. That's why technicians appreciate Intermotor™ factory-installed clips, loom and trays* for a flawless installation while motorists enjoy exceptional power and long service life for the ultimate in import performance.

FIT

MATCHING BOOTS

Intermotor™ wire sets feature OE style import spark plug and distributor boots that look, fit, and perform like the original components. Engineered for extra-durability, long service life and a smooth installation, Intermotor™ premium import boots provide the right fit and a tight weatherproof seal.

PROTECTION & POWER

WIRE CORE & JACKET

Power can't flow if the wire jacket is compromised. That's why Intermotor™ developed a patented hi-gloss clear coat layer that's permanently bonded to our hi-temp silicone jacket. This combination provides powerful protection from engine heat and the potential damage found in today's import engines.

Intermotor™ wire conductors feature precision-matched resistance values to ensure maximum voltage delivery and spark duration while meeting all noise suppression requirements that shield sensitive electronic computers and sensors from interference. The result is clean energy flow for ultimate performance and import power.

EXTRAS

CLIPS • TRAYS • LOOM NUMBERED LEADS

We've gone to great lengths to build an import wire set that guards against damage and creates a clear path for power.

Intermotor™ factory-installed separator clips, anchors, loom channels and trays* keep wires sorted properly and safely to protect against arcing, cross-fire, electromagnetic interference, and damage. Convoluted loom and spiral wrap* protect against abrasion that can cause premature wire failure.

We've even individually numbered each wire lead by cylinder to ensure Intermotor™ import wire sets provide a flawless installation with genuine import performance.

PREMIUM IMPORT IGNITION WIRE SETS

* Factory installed upgrades are specific to vehicle make and model

Genuine Intermotor™ Import Protection, Fit, and Power.

Intermotor™ is unrivaled for import quality, coverage and original match. All Genuine Intermotor™ automotive parts meet or exceed the tough TS16949 international quality certification. With over 10,000 premium parts available at more than 15,000 locations, Intermotor™ is the world's most complete import engine management line. And now we've added Premium Import Ignition Wire Sets to the Intermotor™ family.

Intermotor™ Import Ignition Wire Sets are engineered to exacting fit, form and function specifications...plus! Quite frankly, we've developed the definitive import wire set.

Taking advantage of our years of product innovation, advanced import technology, and quality manufacturing, Intermotor™ Import Wire Sets install with ease and confidence for exceptional power and performance, extra-long service life, and the ultimate import wire experience.

Premium Ignition Wire Sets • Fuel Injection • Ignition • Sensors
Switches • Computerized Engine Controls • Emissions
